Meeting: Follow-up/Closure of AT&T Hosted System Security Audit

Topic: Kansas Hosted Security Audit Final Details

1) AT&T provided the final updates to the security audit July 2019. Updates were provided to the Council Security Committee via e-mail 7/23/19. No further questions were generated from the Security Committee as a result of the final AT&T update.

2) During the annual Security Committee meeting in November 2019 there will be a discussion as to the need to engage AT&T in another security audit for 2020. This evaluation will take into consideration the changes to the KS Hosted 911 network since it's deployment in 2015.
